

SERVING OUR CUSTOMERS

**SINCE 1987**

Since 1987, Multigas has provided Western Canada with the best gas detection sales, service and calibration programs available.

**SALES | INSTALLATIONS | COMMISSIONING | CALIBRATIONS | PARTS & SERVICE**

## MULTIGAS IS FACTORY CERTIFIED AND AN AUTHORIZED SERVICE CENTRE

Fully functional gas detection systems are a critical part of the safe and efficient operation of your facility. Regular calibration maximizes energy efficiency and lowers your operating costs, while ensuring the safety of your patrons and employees.

- For commercial and industrial applications
- Factory trained and authorized technicians
- Free consultations on systems design for problem free installations
- Installation, commissioning and retrofit services
- In stock parts available for immediate repair or replacement

Whether it's sales, installation, inspection, service or calibrating existing systems to ensure detection and HVAC systems are working together efficiently, **Multigas is your partner in finding cost-effective solutions for any application.**

## ENSURING A SAFE WORKPLACE

With our gas detection systems and regular calibrations, we will ensure that your workplace is free of Toxins & Noxious pollutants and complies with Occupational Health and Safety Standards

## MULTIGAS CALIBRATION INCLUDES

- The use of a certified calibration gas to test sensors within the correct range
- Interpretation of error codes for accurate diagnosis
- Verify proper operation of integrated ventilation systems
- Complete review and reporting for system faults, repairs and upgrades required with recommendations and estimates
- A compliance certificate
- Identification tags indicating dates for calibration service
